

ITI0209: User Interfaces

13. Practice Session: Good Visualizations

Martin Verrev

Spring 2026

“There is no
such thing as
information
overload, only
bad design.”

– Edward Tufte

Assignment

We have been working on different topics during the whole semester. Your task is to uncover new insights related to your topic.

1. Find good visualization examples regarding to your topic. Mark it down to Google Sheets created last week. Do not use those shown during class already.
2. Find one bad example
3. Discuss the organizing principles for source data.
4. Explain why the charts chosen are friendly/unfriendly (see lecture slides)

Thank you!
